

The background of the entire image is a detailed, painterly pattern of Mediterranean-style foliage. It features various types of leaves in shades of green and blue, interspersed with small white and orange flowers, and clusters of round orange fruits. The overall style is soft and artistic, typical of traditional Mediterranean wall art.

MEDITERRANEAN™

Sand and sea, terracotta arches, and olive groves characterize a perfect paradise of light and luxury captured along the windswept coastlines of the Mediterranean.

DESIGN & MANUFACTURING

The York Wallcoverings design studio's innovative styling marries each design to the perfect technologies. With every type of wallpaper printing press available in house at York, design interpretation through screen, gravure, rotogravure, surface, embossed vinyl, and digital presses become a canvas for self-expression. This essential hands-on creativity pervades the York manufacturing process, bringing each artistic vision to print reality.

York manufactures all wallcovering product types, including residential, commercial grade, high performance, acoustical, and peel and stick. Here, York's combined technologies, handcrafting, and authentic surface print techniques create a manufacturing mastery of heritage and innovation. Our design studio, manufacturing process, and distinguished heritage make York the preeminent provider of fine wallcoverings in the interior design industry.

Surface Print

Surface Print is the oldest automated printing method still in use today which utilizes raised images on an engraved roller to transfer colors to a continuous reel of paper. A heavy lay-down of inks, wet-on-wet printing, and a less exact image outline give this type of printing a very distinct look that is impossible to duplicate with modern presses.
